

L4 ENTERPRISE CONSULTING LLC

IT
CONSULTING

CAPABILITY STATEMENT

*Vision: Make technology reliable
and seamless so that when the
doors open, it just works.*

COMPANY OVERVIEW

L4 Enterprise Consulting LLC (L4EC) is a Texas-based consulting company. We're certified as a HUB, MBE, and SBE business. We help schools, government agencies, and businesses plan, improve, and manage their technology systems.

CORE COMPETENCIES

- Technology Readiness
- Program and PMO Support
- Adoption and Training
- Cloud Services: AWS, Microsoft 365, Azure
- Cybersecurity and Privacy
- Change Management
- Tech Setup and Support
- Helpdesk and Process Improvement

DIFFERENTIATORS

- We join construction and renovation projects to handle the "tech stack" from cabling and closets to Wi-Fi, devices, AV, and user training.
- Why it matters: Schools and agencies want ready-to-use spaces, not just finished rooms. We turn hand-offs into turn-ons (lights on, Wi-Fi up, badges working, teachers/staff trained).

*Empowering schools, Government
agencies and Businesses with
Strategic IT Solutions*

WHO WE SERVE

- K-12 Public and Charter Schools
- Colleges and Universities
- Local, State, and Federal Government
- Private Companies
- Public safety buildings, health clinics, libraries, admin centers, airports
